

Features

"Thanks for capturing our memories in such an impressive way"
-Dustin, Tulsa

Ceremony

Your ceremony filmed with 2 HD cameras and edited "as is" so you won't miss anything.

Reception

We capture the special moments of your reception and edit a highlight reel with a musical background.

Highlights

Your wedding day in 5 minutes or less. We take the best moments caught on film and create a video that is perfect for sharing.

Bride's Feature

We spotlight the bride just before she walks down the aisle. Cinematographer arrives early (2 hours) to highlight the dress, best-friends and butterflies.

The Interview

How did you meet? When was your first date? Last minute questions for the bride and groom just before the ceremony.

Photo Montage

Photos of the bride and groom growing up and dating. Musical background, transitions, 3D movement effects and titles are included.

Our Love Story

Like an engagement photography session, schedule a video shoot prior to your wedding day. We will film some "action photos" and capture you telling your story of how you fell in love. Perfect to play at the beginning of your ceremony.

Honeymoon Cam

We provide a small HD camera for you to take on your honeymoon. When you return we will edit a highlight reel of your trip and transfer the raw footage to a DVD.

Raw Footage

Get everything our cameras captured on a 250GB external hard drive. The hard drive works like a flash drive and is yours to keep.

Facebook Files

A CD with a small file of your highlight video ready to upload to Facebook, Youtube or other social media websites.

Video Web-Hosting

We will post your wedding video on our website and provide you with a link and password to share with friends and family. You may also include a few photos and a personal message from the bride and groom.
